

Class IV Composite & Digital Restorations

Date: 30 May 2026

Duration: 3 hours (9:00 – 12:00)

Dr. Marco Martignoni

- Graduated with honors (1988); advanced training in endodontics, restorative dentistry, and TMJ disorders (Italy & USA).
- Maintains a private practice in Rome, Italy, focused on endodontics, aesthetic and implant-supported restorative dentistry.
- Past President, Italian Society of Endodontics; President, ESE Congress Rome 2011.
- Founder of the Italian Academy of Microscopic Dentistry and SPIRO (Italian Society of Prosthodontics & Oral Rehabilitation).

Course Objectives

- Gain a comprehensive understanding of predictable Class IV composite restorations.
- Observe and learn from live microscopic demonstrations.
- Explore digital workflows including intraoral scanning and digital smile design.
- Master CAD planning and material selection for indirect restorations.
- Understand the hybrid workflow combining digital data with direct composite results.

Course Outline & Schedule

Part 1 – Class IV Composite Restorations

- | | |
|---------------|--|
| 09:00 – 09:20 | Lecture: Principles of Predictable Class IV Composite Restorations |
| 09:20 – 11:10 | Live Microscopic Demonstration + Hands-on |
| 11:10 – 11:20 | Break |

Part 2 – Digital Restorations

- | | |
|---------------|-----------------------------------|
| 11:20 – 11:45 | Digital Workflow for Restorations |
| 11:45 – 12:00 | Q&A & Closing |
